

Derma Trucks NV – Diagnostic Technician

Derma Trucks is looking for a Diagnostic Technician!

Do you want to be part of a **dynamic and familial company, with a pleasant working atmosphere?**

Are you willing to upgrade, or share, your knowledge in our stable team of professionals?

Do you get sparkling eyes when you hear about working on and maintaining trucks?

Then surely get in touch!

Job description:

- You succeed splendidly in making a **profound diagnosis, and executing mechanical & electronic repairs**
- Furthermore, you brainstorm about how to avoid possible future malfunctions
- **You communicate fluently with the workshop manager** about the tasks completed, so that the end customer is fully aware about the actions taken
- Calibration of tachographs and limiters is also part of the job
- Besides repairs and diagnosis, you monitor technical inspections

Your profile

- You hold a Bachelor's degree in Car Mechanics, a Graduate degree in Automotive technology or you have over 5 years of experience as a Mechanic
- Your knowledge of electrics/electronics and hydraulics is up-to-date, and you are familiar with diagnostic equipment
- You want to remain up-to-date about the newest technology in the sector
- You have a sense of responsibility, and meet the internal agreements
- Others describe you as a true team player
- If you have a C or CE certificate, this would be a plus

What do we offer you?

- A dynamic job, full of variety. So **no assembly-line work** at all !
- A **permanent position with an attractive gross salary and fringe benefits**
- A clean working environment with **in-house professional equipment**
- Training and education by our team of specialists
- An **open family culture with room for personal development**
- A management stimulating **teamspirit** and teambuilding
